The San Diego Unified School District has established Vision 2020, a long term community-based reform commitment and plan to ensure a quality school in every neighborhood. Vision 2020 engages all parents, staff, students and community members, and is designed to result in a high level of confidence in our public schools and a world-class school system for all of our students. Vision 2020 seeks to improve and broaden measures of student achievement, to develop schools as neighborhood learning centers, to ensure effective teaching in the classroom, to engage parents and community volunteers in the educational process, and to facilitate communication and support. Vision 2020 includes twelve indicators of quality schools:

1. Access to a broad and challenging curriculum
2. Quality teaching
3. Quality leadership
4. Professional learning for all staff
5. Closing the achievement gap with high expectations for all
6. Parent/community engagement around student achievement
7. Quality support staff integrated and focused on student achievement
8. Supportive environment that values diversity in the service of students
9. High enrollment of neighborhood students
10. Digital literacy
11. Neighborhood center with services depending on neighborhood needs
12. Safe and well-maintained facilities

The District approaches all of its decisions in the context of Vision 2020 and these quality indicators and believes the accomplishment of this mission for students and families depends on the District and its employees pursuing this common set of goals. As part of that approach, the Board has engaged with stakeholders in focusing on what we still need to make our Vision 2020 a reality districtwide, including but not limited reflecting on feedback from Vision 2020 forums, initial LCAP needs assessments, and specific input from parents and staff.

The District therefore approaches negotiations on a successor contract as an opportunity for the District and SDEA to come together in an environment that includes mutual respect, collegiality, open sharing of information and ideas, understanding of each other’s interests, mutual identification of fiscal and other obstacles in approaching total compensation, and a commitment to work toward the mutual goal of establishing a world-class school system for all of our students. SDEA has identified five bargaining goals for its members, and the District considers them to be consistent with Vision 2020 and the quality indicators. Although current fiscal realities and other factors render these goals difficult in the short term, the District looks forward to a frank discussion of data, financial and other considerations and obstacles related to these goals.
Accordingly, the District identifies the following goals, specific articles of the District/SDEA contract which affect achievement of the Vision 2020 goals including synthesis of community input, and general proposals for achievement of those goals. Because of the District’s approach to the negotiations process, described above, these should be seen as invitations to discuss, share information and explore options for settlement rather than as fixed proposals. The District reserves the right to modify, amend, delete, or add to its proposals throughout the course of the negotiations. Furthermore, the District reserves the right to present additional proposals in response to items in SDEA’s Initial Bargaining Proposal.
