SCHOOL FACILITIES

Naming New Facilities

The board of directors considers the naming of a new district facility a matter of significance. In selecting a name, the board will give preference to names identifying the geographic area of the community served by the said facility or in honor of an individual who has attained great prominence, either locally or nationally, or made long-term contribution to the education of children. In keeping with the board’s desire for inclusion and recognition of minorities, the next new district facility named after a person shall be named after a minority group member, and subsequently, at least one out of three new school facilities, named after a person, shall be named after a minority group member. If a name of an individual, living or deceased, is proposed, such person’s direct connection with the District must have been discontinued for at least five years prior to being considered for Board approval.

Renaming Facilities

The board of directors recognizes that renaming an existing district facility requires thoughtful deliberation and consideration to the implications such a name change might incur with regards to the historical significance and meaning of the current name to the staff, students, alumni and community members. Existing facilities shall be renamed upon approval of the board of directors.

The superintendent/designee shall establish procedures including appropriate community input.
